Hear what some of our SalvageNow clients have to say:

"My relationship with Vemark and their SalvageNow website goes back three years. At that time, we had many salvage trucks that we didn't know what to do with and we were losing revenue. After being introduced to their online auction, we were able to recover our losses quickly. I particularly like the notification the site offers every step of the way, so I know what stage each truck is in from the time it is listed to the time it sells. Our company receives exceptional customer service from Vemark."

"Through SalvageNow, Vemark introduced our company to a new market of buyers. As a national rental agency, if our vehicles are not making us money, they're costing us money. SalvageNow helps us expedite the sale of our total loss vehicles with a broader audience of buyers. Vemark really set the bar for online salvage auctions with SalvageNow."
